

Special for August, New Horizons' Community Learning series is presenting a presentation featuring our local Conservation Officers and what they do. Come out with your questions to learn more about this vital service to the community. The presentation will be Tuesday, August 18 at 10am in the RotaCrest Upper Hall. Further details are available in the attached poster. New this month, New Horizons is waiving its usual \$2 entry fee, asking only for donations to make this presentation as available as possible.

While many New Horizons activities are cancelled through the summer, some events do continue. Crib on Tuesday evenings, Bridge on Wednesday and Thursday afternoons and Table Tennis on Wednesday and Friday mornings continue throughout the summer. Plus Pool is available as desired - contact Jesse Davis for further information.

Our other regular activities will start up in September and October, with further information in our end of August email. And you can look for more information at the New Horizons booth at the Creston Fall Fair.
